

# Adrian Shatford

Principal Architect & Health Facility Planner

*Dip Arch., RIBA*

As a Senior Architect in the Oxford Regional Health Authority (until 1989) Adrian gained extensive experience in the development and implementation of health projects throughout the region. Subsequently he worked as a Health Planner and Architect with D'Arcy Race Computer Aided Design Consultants and then became deputy Director of Organisation Management Systems (OMS) 1992-95, before moving to Facilities Planning of Oxford as Principal.

His experience encompasses health planning for large hospital estates, space utilisation and functional suitability surveys, option appraisal for the rationalisation of major NHS sites, development of appraisal methodology and potential savings in NHS estate utilisation, and extensive involvement in estate strategy and hospital planning and design.

Adrian has been working with Ann Noble Architects since 1996 where he has been involved in numerous health projects including:

- ♦ Kettering General Hospital - Development Control Plan
- ♦ John Radcliffe & Churchill Hospital, Oxford - Space Utilisation Study
- ♦ Hillingdon & Mount Vernon Hospitals - Space Utilisation Study
- ♦ Mid Anglia Community Health NHS Trust - Rationalisation of Trust accommodation at Thetford Cottage Hospital, Thetford Guildhall Clinic, and Abbey Farm Dental Clinic
